### **Other software to consider – Apple laptops only:**

Consider purchasing a Windows 10 licence to enable the Apple laptop to also run Windows software. MacBook vendors should be able to provide this service for a reasonable charge if assistance is needed. Contact [licensing@data3.com.au](mailto:licensing@data3.com.au) to enquire about student licencing arrangements for Windows 10 or purchase through a Windows reseller.

### **Purchasing Considerations:**

A wide range of computer vendors and laptop makes and models should be investigated, and “total cost of ownership” considered. **The cheapest laptop may not be the most economical over the life of the laptop** (usually minimum 3 years depending on individual usage). Consider included components, technical support, warranty and accidental damage arrangements. Upgraded laptop specifications generally provide better performance over a longer period of time, depending on individual usage.

The College takes no responsibility for private laptop purchases and/or finance arrangements. All issues with laptop purchases or technical issues need to be taken up with the vendor. Deliveries must not be made to the College.

### **What if I can't provide a laptop due to financial hardship?**

For families experiencing financial hardship, a limited number of College-owned laptops are available for borrowing from the Student Laptop Hub in the Library each day on a first in basis. Applications for participation in the College Equity Program are through the Principal at the start of each year. Information and application forms are distributed at the start of Term 1 each year and then made available on the College website.

### **Are there any BYOD Program Costs?**

No. All BYOD costs (including Equity Program and daily borrowings) are included in the ICT charge in the annual College Student Resource Scheme, which also contributes to connectivity infrastructure, technical support and licencing costs.
